

# CLEC - Nylon Conduit End Caps

- Moulded nylon conduit end caps
- Designed to snap onto end of conduit to prevent cable damage from chaffing at the cut end of the nylon conduit

## Product Details:

|                   |                                                       |
|-------------------|-------------------------------------------------------|
| Temperature range | - -50°C to +135°C                                     |
| Material          | - PA66 Nylon                                          |
| Colour            | - Black (RAL 9005)                                    |
| U.V. Rating       | - U.V. and sunlight resistant                         |
| Characteristics   | - Halogen free<br>- Designed to suit CL conduit range |
| Installation      | - No tools required                                   |

| Product Catalogue No. | Nominal Conduit Size (mm) | Nominal Outer Diameter (A) (mm) | Internal Diameter (B) (mm) | Overall Length (C) (mm) | Weight (Grams) |
