

VJCF Series – Straight Compression Fittings (Brass)

- Four (4) component nickel plated brass straight compression fitting.
- Provides maximum protection for electrical installations in Industrial & Commercial environments.

Product Details:

- Temperature range - -20°C to + 80°C
- Material - Nickel Plated Brass
- Protection degree - IP65
- Characteristics - High tensile strength, oil resistant, corrosion resistant
- Multi-part four (4) component compression fitting
- Nylon insulating throat
- External male metric thread
- Compatibility - Suitable for all liquid tight VJC series conduits manufactured to American (UL360) sizes
- Applications - Suitable for threaded and knock out entries.
