

# Type – NMHT Conduit

## High-Temperature Flexible Non-Metallic Conduit

### CONSTRUCTION:

Type NMHT consists of a smooth bore spiral rigid PVC inner core embedded within a flexible non-metallic PVC wall and a smooth outer sheathing. Manufactured to comply with AS/NZS 2053.8:1995.

L&C Product Code	Nominal Size mm	Internal Diameter (mm)		Outer Diameter (mm)		Inside Bend Radius (mm)	Weight (Kgs) Per 30 Mtrs	Coil Length (Mtr)
		Min.	Max.	Min.	Max.			
NMHT016-30	16	12.3	12.8	17.5	18	51	4.5	30
NMHT020-30	20	15.8	16.3	20.8	21.3	82	5	30

### APPLICATION:

Type NMHT is ideal for use in the food industry, steel industry, and in heating applications where cables require high-temperature protection.

### CHARACTERISTICS:

- Temperature Rating -20° C to +105° C (Dry) / +60° C (Wet) / +70° C (Oil)
- Oil resistant
- Excellent flexibility
- Standard colour is black
- Fittings: Non-metallic IP67 range of NMCM fittings and metallic LC conduit fittings
